

YOU'RE INVITED
TO A **FREE**
INFORMATION SESSION

**ICE, ALCOHOL AND OTHER DRUGS
EVERYONE WELCOME**

WHY IS ICE SUCH A CHALLENGE FOR OUR TOWN?

If your family is affected by drug use ←

If you think your family may be affected by drug use ←

If you're unsure if a family member is using drugs ←

If you simply want an understanding of ICE and other drugs ←

There has been a significant increase in public concern regarding the use of crystal methamphetamine, also known as ICE.

We encourage you to attend this free information evening to better help you to understand ICE, it's use and it's impact on families and the greater community.

Tips for families trying to manage with a loved one's usage, how to communicate and de-escalate situations with someone behaving aggressively under the influence of substances, and discussion around some of the myths in regard to Methamphetamines.

Ask questions, get the answers directly from people working on the front line and those working behind it, offering help and support to families, friends and loved ones struggling to cope.

GUEST SPEAKER
MICHAEL MILLER
from Family Drug Support Australia (FDS)

Michael will be joined by a panel of experts from a range of local services
